FEATURE GUIDE

ASTM SAFETY FEATURES:

ASTM International is one of the largest voluntary standards developing organizations in the world. ASTM standards are voluntary; however, they were federally recognized with the 1995 passage of the National Technology Transfer and Advancement Act (Public Law 104-113), which requires government agencies use privately developed standards whenever possible.

Taking inspiration from a wide variety of terrains and vegetation: from barren, Rocky® scrubland to trees dotting snow capped peaks. Resulting in a camo that can be worn across the world. One Chance. One Shot. One Camo.

Featuring realistic elements that match your hunting surroundings arranged in a way that completely erases the human form.

NFPA

The National Fire Prevention Association (NFPA) is a global, non-profit organization that promotes safety standards, education, training, and advocacy on fire and electrical-related hazards. Established in 1896 to standardize the use of fire sprinkler systems, the NFPA's scope grew to include building design, rescue response, electrical codes, and other safety concerns.

SEI

Safety Equipment Institute (SEI) has served as one of the world's leading independent third-party certification program providers. An affiliate of ASTM International, SEI works with government agencies, standards development organizations, governing bodies, and manufacturers to accomplish one common goal to provide industrial workers, firefighters, first responders, law enforcement, athletes, and the general public with certified, trusted safety equipment.

- S.R. USA Postal Approved

GSA | POSTAL APPROVED

Jump Boot // 4090 // 10"

Women's M/W 5-10

- Self-locking side zip
- YKK side zipper for easy on and off

RED LINE BLUE LINE

ROCKY® WAS BUILT AROUND FAMILY

and has been supporting men and women who serve our country and communities for the past 90 years. We now continue this tradition with the Rocky® Red Line and Rocky® Blue Line family of footwear. These boots are available in sizes for everyone in the family to show their support for law enforcement and fire personnel.

Providing support to our military, police, firefighters, EMTs, and volunteer first responders, who selflessly serve our country and communities regardless of occupation or background, the Tunnel to Towers Foundation was founded in remembrance of the sacrifice of firefighter Stephen Siller who laid down his life to save others on September 11, 2001. Learn more at tunnel2towers.org

ROCKY®

INDEX

SQUARE TOE ENERGYBED // RKK0320

Rocky EnergyBed features kinetic energy absorbing materials that dampen the inertia applied to them, then rebounds to it's inherent state. Now available in square toe.

ENERGYBED // RKK0319

Rocky EnergyBed features kinetic energy absorbing materials that dampen the inertia applied to them, then rebounds to it's inherent state.

TERRA SUSPENSION // RKK0318

Rocky Terra Suspension footbeds' durable PU arch and heel are contoured to fit for supportive comfort no matter the terrain.

AIR-PORT // RKK0317

Molded from durable polyurethane that will never break down or lose it's shape, Rocky Air-Port comfort footbeds circulates air with every step.
